

SAMUEL SMITH'S ORGANIC CIDER IN CANS!

When Samuel Smith's Brewery introduced **Organic Cider** in bottles 10 years ago, sales exploded - to nobody's surprise. After requests from consumers and retailers, Samuel Smith's has now released **Organic Cider in 4-packs of 14.9 oz. (440 mL) cans**, joining the 12 oz. and 18.7 oz. bottles that are in wide distribution.

Crisp, with a floral apple-blossom nose and the satisfying flavor of apples right off the tree, **Organic Cider** offers a finish that's dry but not austere, plus it's naturally gluten-free and USDA Certified Organic.
